

# MAKE A BIG DIFFERENCE

Using printed OASUS bottles ensures your company to accelerate the transition to a new, responsible type of plastic. Make it a surprise for your colleagues, suppliers, visitors or clients. To them, the OASUS bottle is more than a statement: it's a concrete step to an oil plastic free, better world.

# OASUS

# MAKE AN ACTIVE CONTRIBUTION TO A SUSTAINABLE AND CLEAN ENVIRONMENT

Inspire your customers responsibly and convey the message of sustainable living with Oasis!  
Perfect as a gift, promotional item, on the road, on holiday or to use in the workplace.

The temperature on earth is rising, the ice caps are melting, natural disasters are becoming more severe, and more and more of our flora and fauna are disappearing. We cannot turn the tide by ourselves, but together we can! This means that everyone needs to take responsibility.

The OASUS bottles are made from residues of sugar cane. The sugar cane is initially used for sugar and bioethanol. The bottles are made of the rest. The water bottles are colored with natural pigments.

*Make the world sugar-sweet and oil-free!*

## GOOD TO KNOW!

OASUS and UNICEF  
The support of the "Plastic Bricks" project not only promotes education (children and adults) in Ivory Coast, but also works for a better environment. The Ivory Coast has a huge waste problem. The capital Abidjan produces 288,000 kilos of plastic every day. UNICEF has some of it recycled into plastic blocks that are used to build classrooms.  
1 Oasis water bottle = 1% donation to UNICEF Plastic Bricks
