

EDUCATIONAL CARD GAME ON BIODIVERSITY

Plantje Boom playfully puts the importance of biodiversity on the map. It is an educational card game for young and old.

Players are introduced to soil life in an approachable way and learn through play what they can do to promote biodiversity.

- Game for ages 6+, 2 to 5 players
- Educational game for the whole family
- Sustainably produced in Germany
- Unique gift for your business relations
- Can be personalised with a sleeve and a sticker

NEW

Plantje Boom is an energetic card game suitable for any age and any time!

Plantje Boom's mission is to raise awareness around biodiversity.

Showing people that greater biodiversity is not only good for nature, but also for us as humans. The card game is an accessible and fun way to get this message across. Contribute to a more sustainable future with Plantje Boom in a playful way.

How do you play Plantje Boom?

In Plantje Boom, you collect as many species as possible from your tree cards. The more different species you collect, the more leaves grow on a tree. Meanwhile, paving stones and branches fly around your ears. Players learn through action cards what they themselves can do to contribute to restoring biodiversity.

Will you end up with the most beautiful trees?

The card game contains:

- 18 tree cards
- 16 action cards
- 36 species cards
- 54 cardboard leaves
- 1 rule booklet

How to customize

- full colour printed sleeve around the packaging
- full colour sticker on the box

With a personalised educational game, you promote your company in a unique and sustainable way!
